Draw a line from each shape on the left to the matching shape on the right side of the page.

The image shows a matching exercise with two columns of seven geometric shapes each. The left column shapes are: a green circle with a sunburst, a blue right-angled triangle with a flower, a green diamond with a star, a blue square with a sunburst, a blue triangle with a 'W' and circles, a green pentagon with a snowflake, and a green triangle with a sunburst. The right column shapes are: a green pentagon with a snowflake, a blue triangle with a 'W' and circles, a green diamond with a star, a green triangle with a sunburst, a blue right-angled triangle with a flower, a green circle with a sunburst, and a blue square with a sunburst. A central column of black dots has red lines connecting each dot to a shape on either side, forming a complex web of connections.
