Match each alphabet with the picture that begins with that alphabet.

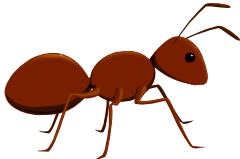

A   

B   

C   

D   

E   

F   

The diagram shows a central point where six red lines intersect. Each line connects a letter on the left to a dot on the right, and each dot is connected to a corresponding picture on the right. The connections are: A to the top-right dot (goldfish), B to the middle-right dot (lion), C to the top-right dot (goldfish), D to the middle-right dot (lion), E to the top-right dot (goldfish), and F to the bottom-right dot (ant).
