Last summer my sister and I got to visit our grandparent's ranch during summer vacation. I had a wonderful time visiting my grandparents. The best part about visiting their ranch was riding the horses. My favorite horse was named Rascal. Grandpa let me ride Rascal every day. I helped with his grooming and feeding. My sister's favorite part of the ranch was gardening with Grandma. They spent hours in her garden, picking vegetables and admiring flowers. My sister said her favorite plant was the pumpkins. When we arrived at the ranch, they were small green balls. When we left, they were enormous and orange! Grandma let us each pick a pumpkin and taught us to bake with them. My sister and I agreed that her baking is the best in the world. We look forward to visiting our grandparents at their ranch every summer now.

My fifth birthday party was the best one yet! I remember it like it was yesterday. My parents hired clowns to come perform for all of our guests. The clowns wore their clothes backwards, walked backwards, and even spoke some of their sentences backwards! Even the adults were laughing at their silliness!
