

Rewriting a Paragraph with Synonyms of the Given Words (Answer Sheet)

1. I was struggling to finish my math homework. I had gone to my big brother for help, but he hadn't helped very much. I had a very hard time when I had to tally the answers for problems like these, and I wanted very much to wind up working on this assignment. But it seemed like the harder I worked, the more puzzled I became. I just don't know if I'm qualified to learn how to divide fractions.
