

## Area of Irregular Figures on Graphs

---

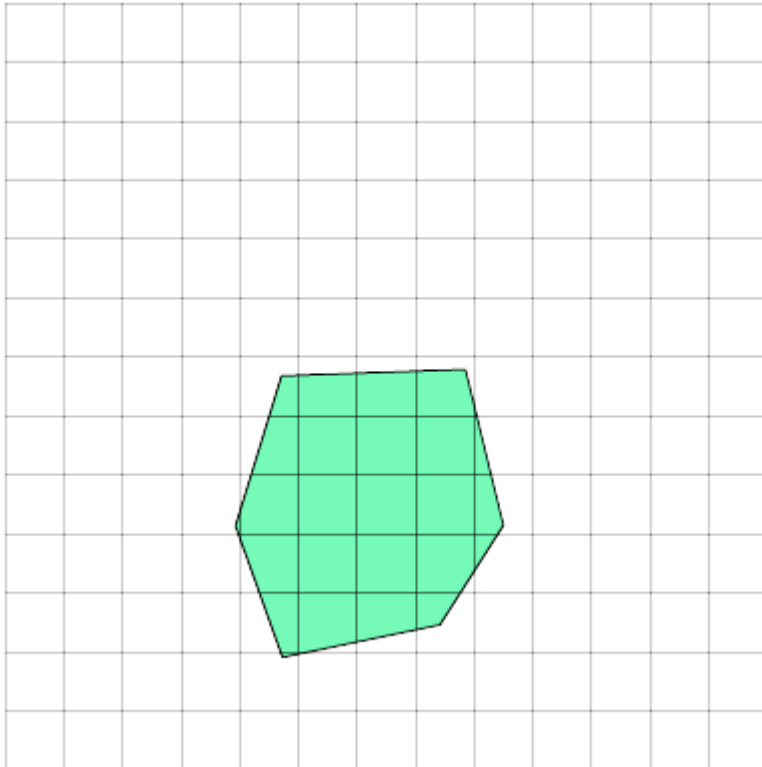

Find the area of the given complex figure.

1. (Note: The area of each block is 1 square unit)

- 10 square units       12 square units  
 8 square units       14 square units

2. (Note: The area of each block is 1 square unit)

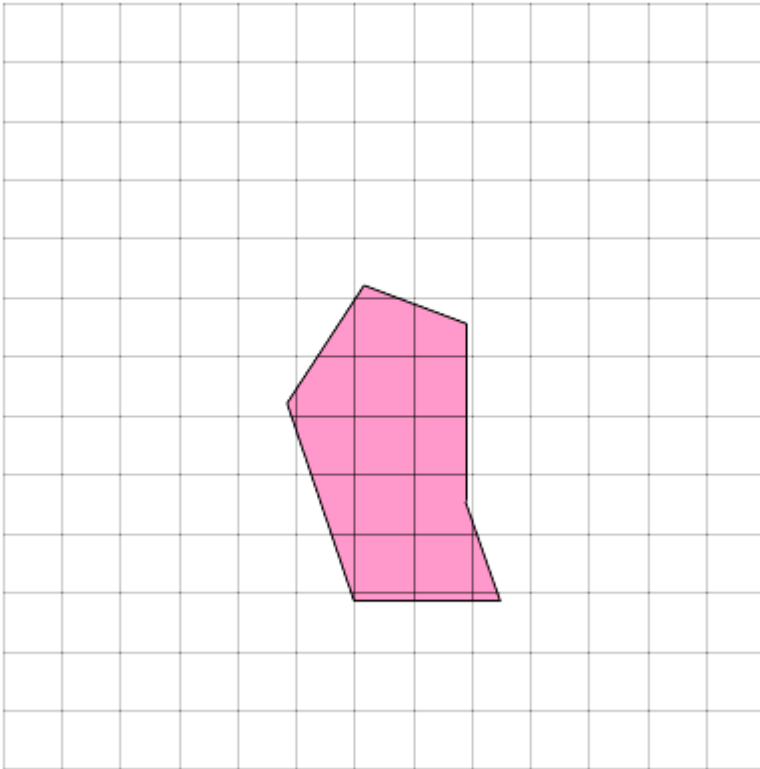

19 square units

14 square units

17 square units

15 square units

3. (Note: The area of each block is 1 square unit)

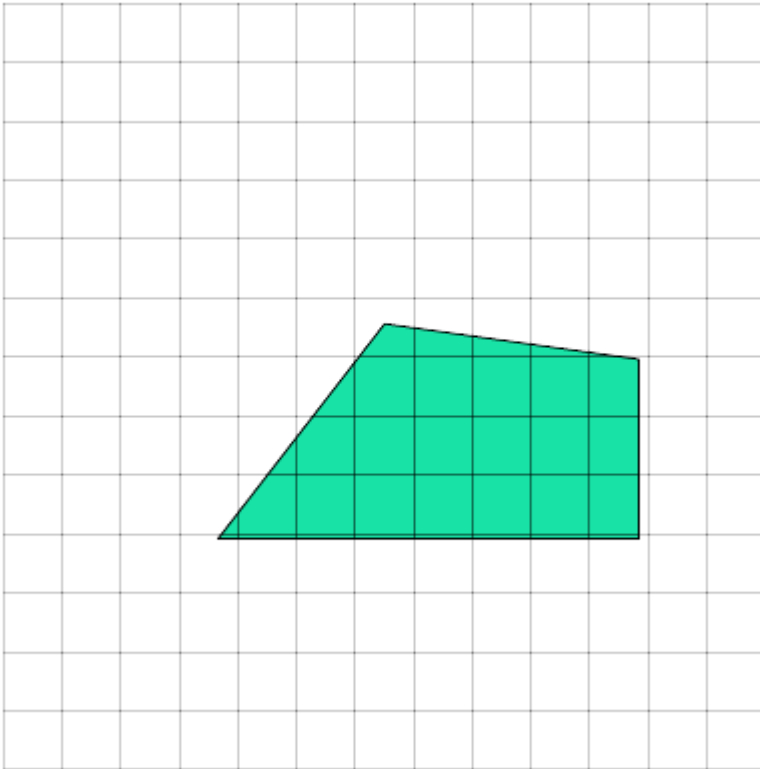

13 square units

10 square units

17 square units

16 square units

4. (Note: The area of each block is 1 square unit)

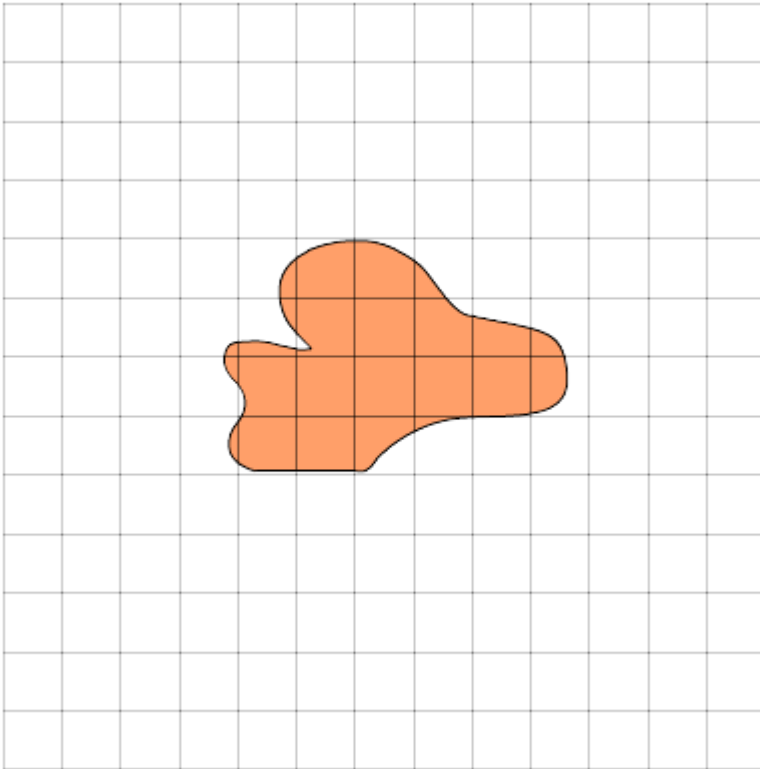

10 square units

18 square units

20 square units

15 square units

5. (Note: The area of each block is 1 square unit)

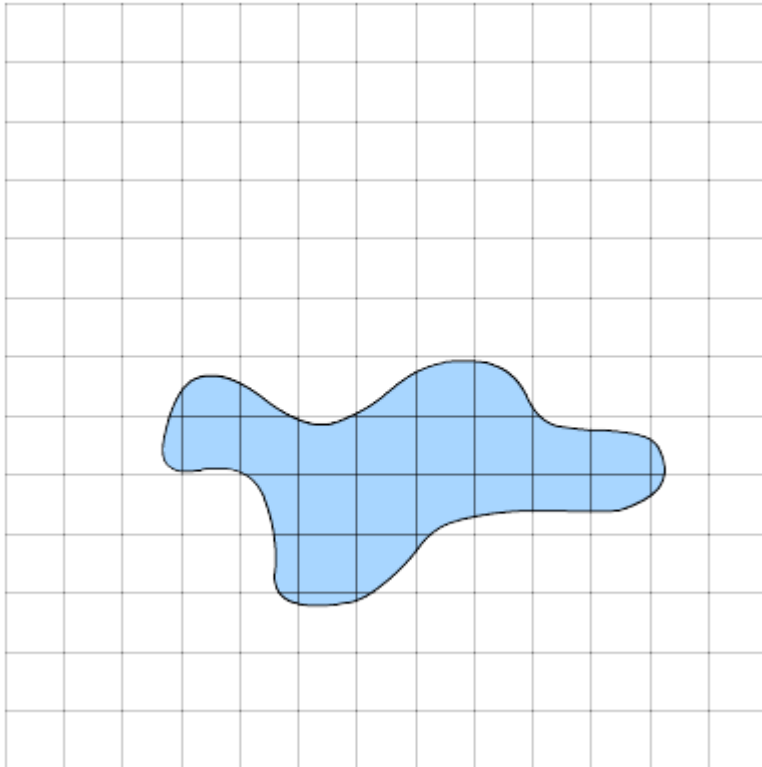

10 square units

18 square units

14 square units

11 square units

6. (Note: The area of each block is 1 square unit)

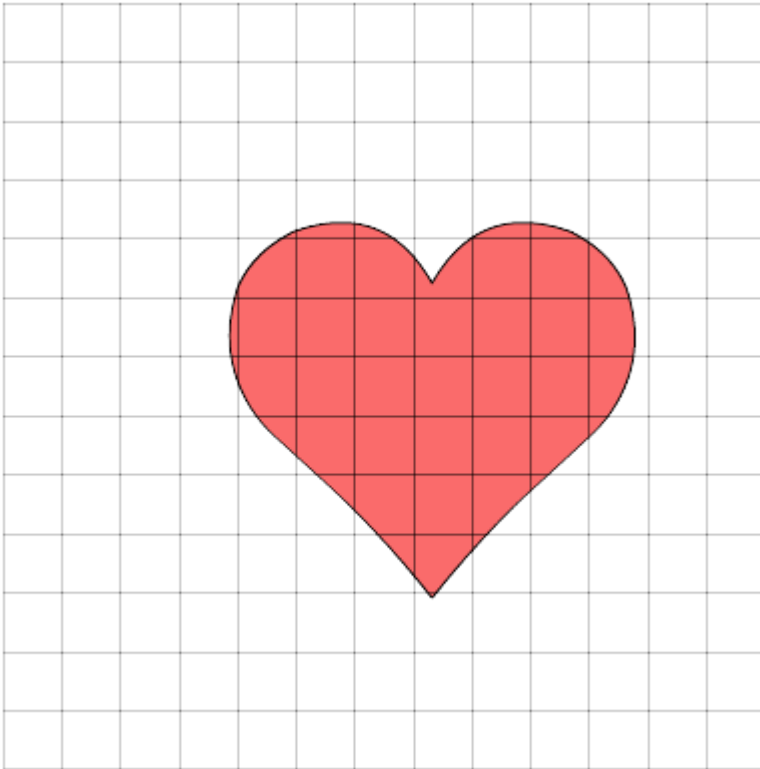

10 square units

11 square units

14 square units

20 square units

7. (Note: The area of each block is 1 square unit.)

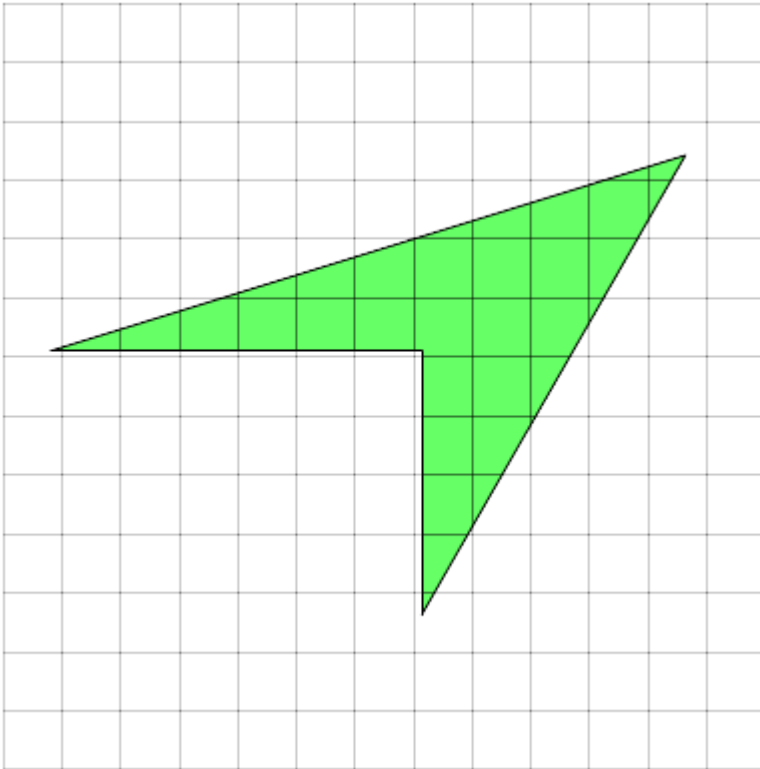

34 square units

35 square units

29 square units

22 square units

8. (Note: The area of each block is 1 square unit.)

15 square units

22 square units

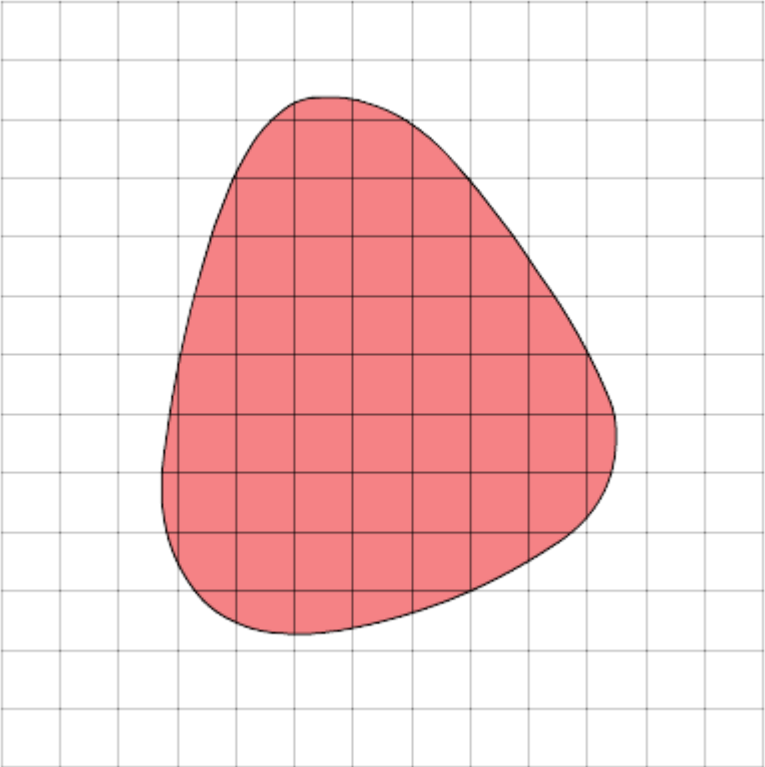

27 square units

18 square units

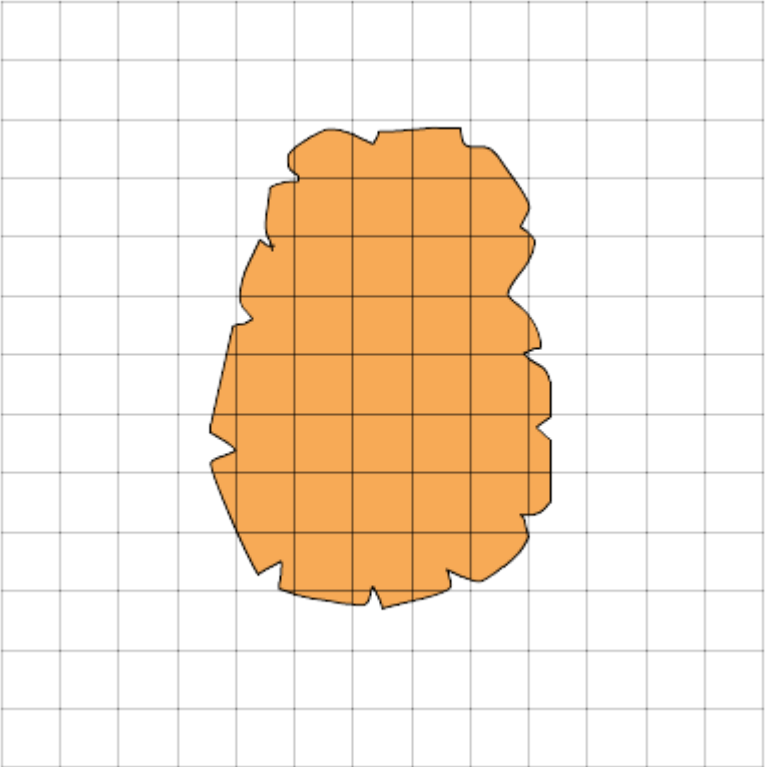

10. (Note: The area of each block is 1 square unit.)

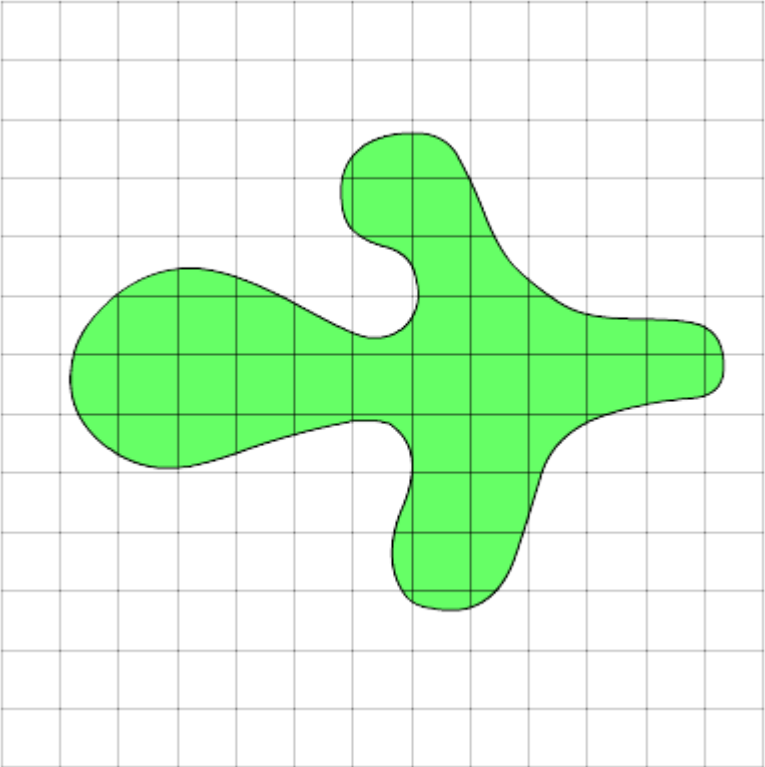

- 21 square units
- 42 square units
- 53 square units
- 49 square units

11. (Note: The area of each block is 1 square unit.)

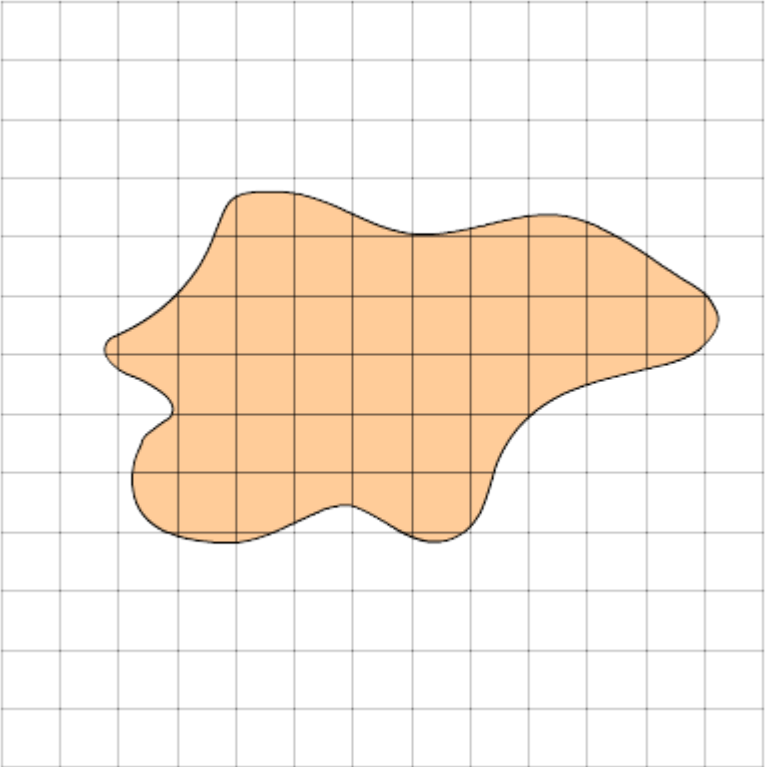

- 24 square units
- 36 square units
- 32 square units
- 44 square units

12. (Note: The area of each block is 1 square unit.)

- 36 square units
- 33 square units
- 25 square units
- 22 square units

13. (Note: The area of each block is 1 square unit.)

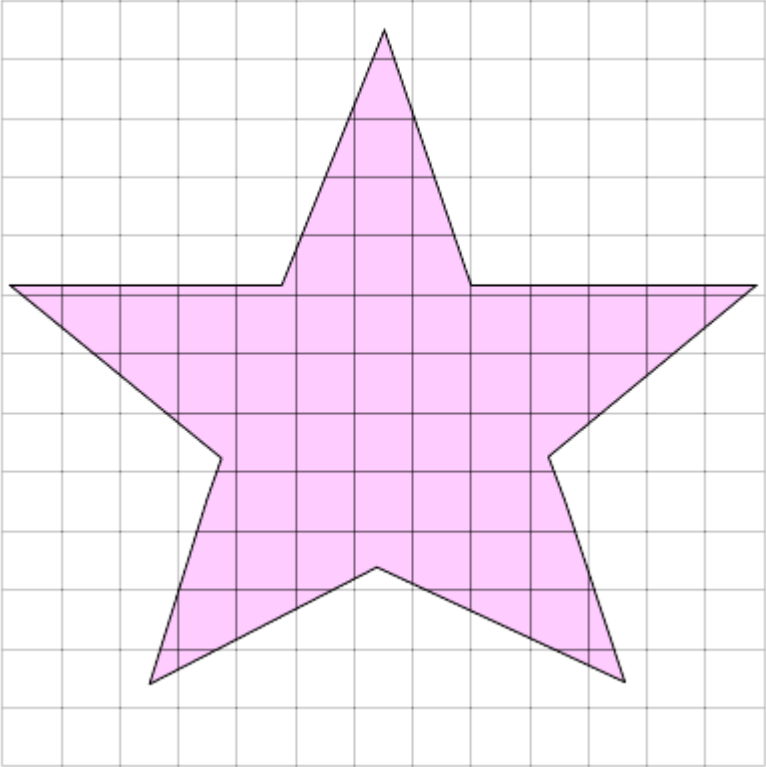

37 square units

41 square units

29 square units

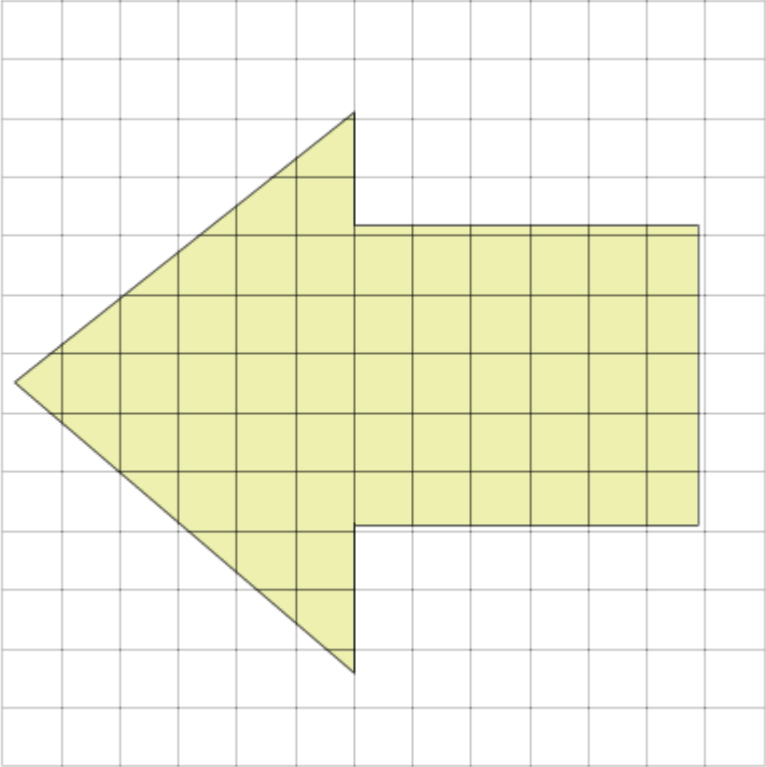

48 square units

14. (Note: The area of each block is 1 square unit.)

- 61 square units
- 50 square units
- 68 square units
- 53 square units

15. (Note: The area of each block is 1 square unit.)

- 63 square units
- 52 square units
- 58 square units
- 46 square units
