

## Decimal Number Lines Part 2

---

Identify the decimal represented by the point *s* on the given number line.

Identify the decimal represented by the point *m* on the given number line.

Identify the decimal represented by the point  $u$  on the given number line.

- 0.986
- 0.985
- 0.95
- 0.96

Identify the decimal represented by the point  $n$  on the given number line.

- 1.03
- 1.3
- 1.003
- 1.0003

Identify the decimal represented by the point  $s$  on the given number line.

- 11.100
- 11.111
- 11.107
- 11.117

Identify the decimal represented by the point  $n$  on the given number line.

- 8.110
- 8.111
- 8.112
- 8.113

Identify the decimal represented by the point  $s$  on the given number line.

- 20.010
- 20.014
- 20.040
- 20.050

Identify the decimal represented by the point  $t$  on the given number line.

- 20.860
- 20.866
- 20.876
- 20.878

10. Identify the decimal represented by the point  $p$  on the given number line.

- 0.003
- 0.03
- 0.007
- 0.07
