

Ways to Make a Number Using Subtraction Part 2

Which of the following ways can be used to make the number three?

1. 8 - 0
 9 - 5
 8 - 5
 10 - 4

Which of the following ways can be used to make the number six?

2. 8 - 2
 9 - 5
 7 - 5
 8 - 4

Which of the following ways can be used to make the number two?

3. 8 - 2
 6 - 4
 7 - 3
 8 - 4

Which of the following ways can be used to make the number five?

4. 8 - 2
 9 - 4
 7 - 3
 8 - 6

Which of the following ways can be used to make the number four?

5. 10 - 3
 9 - 6
 7 - 3
 8 - 6

Which of the following ways can be used to make the number seven?

6. 15 - 8
 10 - 6
 17 - 7
 12 - 6

Which of the following ways can be used to make the number six?

7. 12 - 0
 15 - 5
 10 - 4
 16 - 4

Which of the following ways can be used to make the number twelve?

8. 17 - 15
 19 - 12
 15 - 3
 20 - 16

Which of the following ways can be used to make the number eleven?

9. 12 - 7
 18 - 7
 16 - 9
 15 - 5

Which of the following ways can be used to make the number ten?

10. 18 - 11
 20 - 10
 13 - 9
 15 - 7

Which of the following ways can be used to make the number fourteen?

11. 16 - 4
 17 - 6
 18 - 8
 17 - 3

Which of the following ways can be used to make the number fifteen?

12. 20 - 5
 10 - 8
 14 - 6
 17 - 12

Which of the following ways can be used to make the number sixteen?

13. 20 - 15
 12 - 6
 18 - 2
 15 - 6

Which of the following ways cannot be used to make the number five?

14. 12 - 7
 9 - 4
 10 - 5
 16 - 4

Which of the following ways cannot be used to make the number three ?

15. 13 - 10
 17 - 14
 10 - 7
 20 - 10
