

Determine Time by Rounding to Nearest Hour

Find the time using the method of rounding.

1. $3:20 + 3 \text{ hours and } 15 \text{ minutes} = \square : \square$

2. $3:55 + 2 \text{ hours and } 5 \text{ minutes} = \square : \square$

3. $10:15 - 4 \text{ hours and } 10 \text{ minutes} = \square : \square$

4. $6:15 - 1 \text{ hour and } 15 \text{ minutes} = \square : \square$

5. $7:20 + 5 \text{ hours and } 5 \text{ minutes} = \square : \square$

6. $9:20 + 7 \text{ hours and } 10 \text{ minutes} = \square : \square$

7. $3:20 + 3 \text{ hours and } 45 \text{ minutes} = \square : \square$

8. $5:10 + 2 \text{ hours and } 50 \text{ minutes} = \square : \square$

9. $6:35 + 5 \text{ hours and } 55 \text{ minutes} = \square : \square$

10. $12:10 + 7 \text{ hours and } 50 \text{ minutes} = \square : \square$

11. $1:40 + 3 \text{ hours and } 45 \text{ minutes} = \square : \square$

12. $6:15 + 5 \text{ hours and } 45 \text{ minutes} = \square : \square$

13. $3:25 + 3 \text{ hours and } 50 \text{ minutes} = \square : \square$

14. $6:35 - 5 \text{ hours and } 55 \text{ minutes} = \square : \square$

15. $5:35 - 5 \text{ hours and } 45 \text{ minutes} = \square : \square$
